QUESTION 2 OF 2 - OPTIONAL

Additional comments?

**YOUR REACTION TO DAVID DOGFOOD**

The review was useful and I'll take into consideration the recommendation to change the vertical line and to rethink the way to display name and title.

QUESTION 2

Mention something that your classmate could improve at 📝

**YOU TO PEER #1**

You did not meet the requirements of the assignment description.

← Add Comment

Peer #1 · just now

Can you specify which requirement I failed to meet? 🚩

Answer was flagged by Peer #1

You · just now

The assignment asked us to include at least 3 references and I only counted 2.

QUESTION 1 OF 8

Did the authors include a picture illustrating the core of the problem?

MARIE'S FEEDBACK TO MONIKA'S SUBMISSION

No

Yes

ADDITIONAL COMMENT

There are various diagrams showing emissions but this to me does not illustrate the problem, if i understand the problem presented correctly.

 **FLAGBOT**

We think this answer deviates a lot from other answers.

FEEDBACK FOR SUBMISSION

QUESTION 1 OF 10

Has the author considered suggested solutions (from feedback for Assignment 1)?

ULF ASLAK'S FEEDBACK TO DAVID KOFOED WIND'S SUBMISSION

No

Yes

Comment

Edit Response

MIKKEL'S FEEDBACK TO DAVID KOFOED WIND'S SUBMISSION

No

Yes

ADDITIONAL COMMENT

A comment to each peergrader was delivered, which was great. When I read the headline and the original problem identification I didn't expect much, but the solution is very well identified and described. I would sign up!

3D SYSTEMS®

Peergrade helps with training critical thinking skills. Students improve their argumentation skills and learn intellectual humility when receiving critical and constructive feedback.

**Dr. Erik Jentges, Educational Developer @ ETH Zurich**

I teach an introductory Python coding class. I use Peergrade to have my students evaluate each other's code. I tried using other tools, but they were not as user friendly and did not support my needs like Peergrade.

**Jon Jasperson, professor & academic director @ Texas A&M University**

**Is it secure  
enough?**

# Secure. Compliant. Private.

Privacy Shield  
Framework

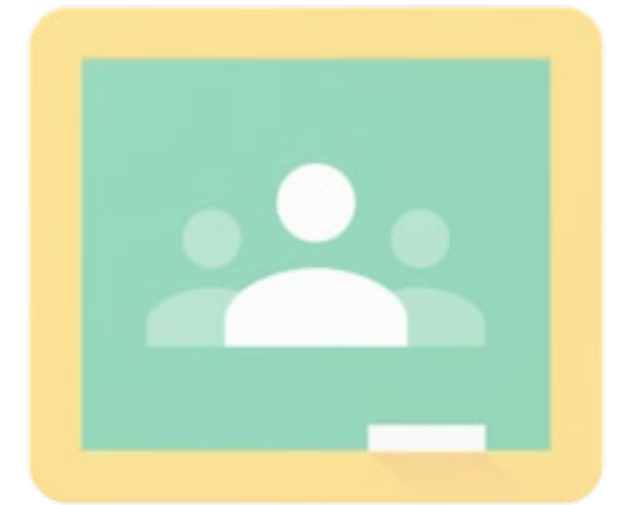

**Can it integrate  
with our systems?**

# Fully integrated
