

On the 23rd of May 2023 SURF organises SURF Research Day.

The theme of the Research Day is "Get on board": the aim of the day is to connect research, IT and innovation. We have identified 5 tracks:

- Research Collaborations: focus on research support, on communities; the organization of expertise.
- Future: tech – process – support
- Research IT: focus on tooling, use of cloud, big tech; the organization of facilities.
- Responsible Research: focus on i.e. open science, sustainability, integrity, scarcity
- Research Applications: focus on services used in research

Use this form to submit a session proposal for the SURF Research Day 2023.

*** What is the title of your session/demo (max. 10 words)?**

*** Describe your session/demo (max. 250 words)**

*** Describe in one sentence the key message of your session/demo**

*** Format session (Length of session: max. 50 min (Excl. lightning talk):**

- Lightning talk (1 speaker, max. 10 min) - share your initiative or project in a short inspiring speech
- Presentation + Q&A (1-2 speakers, 50 min) – share specific knowledge and engage the audience.
- Interactive session - Panel discussion, debate or talk show (1-5 speakers, 50 min) – experts discuss on a topic and exchange ideas with each other and the audience.
- Interactive session - Round-table discussion (1-2 speakers, 50 min) – focus on conversation with / among tablemates, a dialogue to gain insights.
- Interactive session - Quiz (1-2 speakers, 50 min) – participants answer questions and gain knowledge.
- Demo / poster presentation (1-2 speakers) – demonstrate how your innovative application, service or product can be used or present it via a AO size poster and explain it briefly.
- Free format

Which organisations are involved in this session?

*** Which connection will be made between (applied) research and research support?**

*** Which track applies the best to your session?**

- Research Collaborations
- Future: tech – process - support
- Research IT
- Responsible Research
- Research Applications

By default, a beamer, laptop and internet connectivity are available. Which other equipment is needed for your session/demo? If you have additional requirements, please state below:

Which room set-up is preferable for your session?

Please note that some session formats have default room set ups that cannot be changed.

- Theatre
- Debate
- Round-table
- Other:

Do you have any other comments / additions?
